Lab 6 Coverage Submission Report

Mobile Data Plan | Code coverage and branch coverage

Submission Summary

Separate Python test files are maintained for statement/code coverage and branch coverage. Both suites were run independently against `mobile_data_plan.py`.

Suite	Test file	Result	Coverage
Code coverage	test_code_coverage.py	4 passed	100% statements
Branch coverage	test_branch_coverage.py	23 passed	100% (26/26 branches)
All lab tests	All three test files	29 passed	Meets 90% minimum

Verification

The branch run reported 37 statements, 0 missed, 26 branches, 0 partial branches, and 100% total coverage. The complete lab test run passed all 29 tests.

GitHub Commits

`faa4b34` Add code coverage tests
`8a6b0df` Add branch coverage tests
Both commits were pushed to the configured `origin/main`.

Screenshot Evidence

Pending: terminal screenshots are not attached. Capture the final code-coverage and branch-coverage terminal reports and save them under `Lab 6/screenshots/` before treating the submission evidence as complete.

Coverage figures reflect the completed test runs; screenshot evidence must be added separately.
